

### Low Visibility Operations Application (Form 9022) Guide

The requirements for Low Visibility Operations are found in OTAR Part SPA (Special Approvals). Section IV is the appropriate part and has various applicable appendices. Please note OTAR 125.1115 (c), states the need for 6 month (biannual) simulator checks. OTAR 125 which includes the LVO SPA are to be found on [www.airsafety.aero](http://www.airsafety.aero).

*Note: CAT 1 or Non-Precision Approach (LOC, RNP, VOR-DME) utilizing HUDLS/hybrid HUD/HUDLS and/ or EVS is not classified as Low Visibility Operations and therefore does NOT require Governor's Approval.*
