Low Visibility Operations Application (Form 9022) Guide

The requirements for Low Visibility Operations are found in OTAR Part SPA (Special Approvals). Section IV is the appropriate part and has various applicable appendices. Please note OTAR 125.1115 (c), states the need for 6-month (biannual) simulator checks. OTAR 125 which includes the LVO SPA are to be found on www.airsafety.aero.

Note: CAT 1 or Non-Precision Approach (LOC, RNP, VOR-DME) utilizing HUDLS/hybrid HUD/HUDLS and/ or EVS is not classified as Low Visibility Operations and therefore does NOT require Governor's Approval.

Form 9022 can be found at www.airs.bcaa.bm.

Pursuant to the above contact the Flight Operations Team. Any queries or concerns can be sent to any member of the Flight Operations team.

The Flight Operations team is:

Peter Adhemar	pnadhemar@bcaa.bm	Director of Operations
Tariq Lynch-Wade	talynchwade@bcaa.bm	Flight Operations Inspector
Sebastian Brisson	sbrisson@bcaa.bm	Flight Operations Officer
